SUMMARY

Passionate about turning raw data into meaningful insights, I'm a Computer Science student who thrives on building real-world solutions. With strong skills in **Python**, **SQL**, and **Power BI**, I've led and contributed to academic projects that blend logic, design, and data storytelling. Known for my self-driven learning, problem-solving mindset, and tech curiosity, I'm eager to join teams where I can code, analyze, and grow into a dynamic tech professional.

TECHNICAL SKILLS

- Programming languages : Python , SQL , R(Basics).
- Data Visualization : Power BI , Tableau.
- Databases : MySQL.
- Tools : Excel , VS Code , Jupyter Notebook .
- Other : Statistical Analysis , Data Cleaning , Data Manipulation.

PROJECTS

- College Level Result Analysis Dashboard – Tools Used : Power BI , Excel.

Built an interactive dashboard to analyze student results across departments using **Power BI** and **Excel**. Implemented slicers for **Regulation, Department, Subject, and Year** to enable dynamic filtering, and visualized **pass percentage trends** to support academic decision-making.
